Dear Miss Dines,

We are writing to show our concern about fantastic fair trade items. Recently, while shopping, we have not found any fair trade chocolate in our local shops. We think there should be more fair trade items in the shops because people are having proper poverty problems. This is disgraceful!

Fair trade farmers aren't getting enough money: without money, no food, without food, no health, without health, no life. Also, climate change is a very big impact on the farmers, their plants are getting diseases so they can't sell their crops. This is disgraceful human behaviour for all people should be treated the same fair way. Like us for example, we have food, shelter and education whereas these farmers can't rely on these things for their families.

Please consider putting more fair trade things into the shops so farmers can have a more predictable life and make plans for the future of their farms.

Furthermore, would you like to be in poverty? No?, so please contribute to **STOPPING** climate change!

Thank you for reading this important letter about future life.

Yours sincerely,

Martha and Ivy from Eyam C of E Primary School
