MP for Derbyshire Dales

Dear Miss Dines,

We are writing to inform you about the lack of Fairtrade chocolate in shops near us. Most children love chocolate and it is a huge disappointment to see **NO** Fairtrade children's chocolate in our local supermarkets.

The Global Climate Crisis is one of the main issues for farmers getting dangerous diseases on their crops. If these diseases kill off their plants we will no longer have tasty coffee and chocolate! What delicious drinks will you sip now early in the morning? Climate Change means the planet is heating up which means more diseases for their crops and trees.

Fair trade is important to help farmers and their families get enough money from their produce to pay for clean water and nutritious food and education for their children and teenagers. If there are no farmers there is no food. We must form justice for these hard working, hungry farmers!

It is time to make it right! This is our future being destroyed and not yours. We must take action now not later! How would you feel if you were in our position? Please encourage local shops to stock more Fairtrade items. Thank you.

"Nobody wants to buy something that was made by exploiting someone else."
-Jerry Greenfield

Yours sincerely
